公司介紹

神揚工業股份有限公司是業界領先的熱塑性聚氨脂材料製造商，以“Goldthane® TPU”品牌營銷，為TPU擠出、壓延、複合和接著劑應用提供創新的產品。神揚工業股份有限公司也是永純化學工業股份有限公司的獨資子公司，從1965年開始從事聚酯多元醇樹脂的製造。

神揚工業股份有限公司在競爭激烈的全球貿易版圖中，透過銷售量與獲利的健全組合，迅速擴展我們的事業版圖。我們專精於熱塑性聚氨酯樹脂的製造，將營運策略建構於科技、服務、品質及環境之四大面向，持續挑戰、進步，提供市場更專業的產品與服務。

聚集多年研究開發經驗、對全球化工產業趨勢的敏銳知覺，成就Goldthane®在低溫TPU 科技的靈活創新，符合客戶當地各種產業應用需求。Goldthane®勇於挑戰最新技術，細節導向的服務，致力建立客戶夥伴關係，客製化您的商機，共享雙贏、共創未來。堅持提供高品質的全方位產品，聆聽每位客戶的應用需求，追求供應可靠信賴、更具經濟效益以及高滿意度的創新服務。緊密掌控每項作業的執行，以合乎最高標準的環境安全規範，確保所有員工、客戶、社區及環境的健康與永續發展。

Sun Yang Global Co. Ltd., is a leading thermoplastic adhesive material manufacturer, marketing with the brand name “Goldthane® TPU”, providing innovating products for extrusion, calendering, compounding and adhesive applications. Sun Yang Global Co. Ltd., is also a wholly-owned subsidiary of Yong Shun Chemical Co., Ltd., engaging in polyester resin manufacturing since 1965.

Sun Yang Global Co. Ltd., has accelerated sales expansion in the volatile world market through a healthy combination of volume and earning increase. Specializing in production and sale of thermoplastic polyurethane elastomers, we shape our business strategies into the dimensions of technology, service, quality, and environment to ensure our overall excellence.

With a keen sense on the trend of global chemical industry experience in R&D, innovative low temperature TPU technology has been applied to satisfy local customers' needs in various industry sectors. With the continual drive to challenge the latest technology, our detail-driven service aims to develop close business partnership and look for mutual growth potential. We pursue high quality in all aspects of product portfolio, and take every customer's requirements and applications into account for higher safety, longer service life, and greater customer satisfaction. We pay close attention to every step in the operation so that the product of the highest standard is produced in a safe environment where the health and wellbeing of our employees, customers and community is guaranteed.

CORE VALUE

GOLDTHANE®

品牌價值

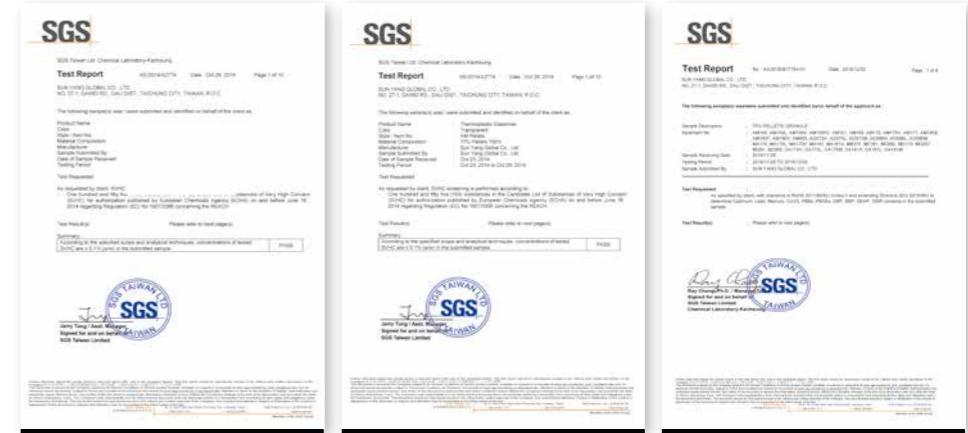

Goldthane® 是神揚工業股份有限公司的品牌名稱，專注於發展低溫 TPU 的極緻工藝，提供各種不同獨特特性之產品，如高回彈、尼龍材質貼合、不黃變、手感訴求、富有彈性、和不同軟硬度的需求。

Goldthane® 開發溶劑型 TPU 膠黏劑，熱融膠系列則對應至無溶劑型的 TPU 需求，以回應環保意識及實踐企業社會責任。神揚工業在產品多元化與市場競爭之下，秉持與客戶長期合作夥伴關係之經營理念，以創新、環保、再生利用、提升產品價值的方向致力於複合材料開發，與客戶共創雙贏局面。

Goldthane® is the brand name of Sun Yang Global Co., Ltd., which focuses on low temperature TPU innovation, featuring special properties including high rebound elasticity, nylon bonded, non-yellowing, quality texture, flexibility, and solidity. Goldthane® developed solvent-based adhesives, solvent-free adhesives, in response to the environmental awareness and our corporate mission.

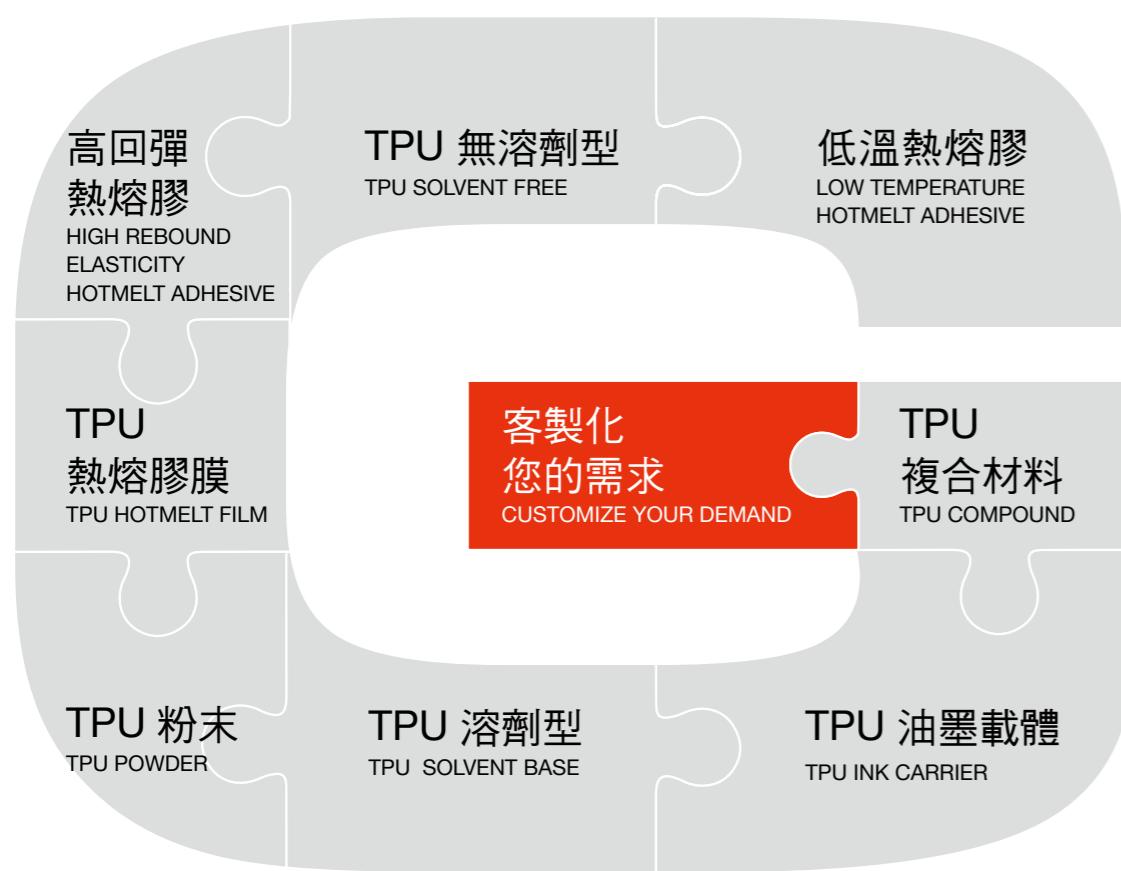

SUN YANG GLOBAL CO., LTD. upholds its commitment to establish a long-term trusting, cooperative partnership with customers under global market diversification and competition condition. We are committed to developing composite TPU materials with innovation, environmental protecting conception, recycling and upgrading product value to create the win-win situation with customers.

BRAND VALUE

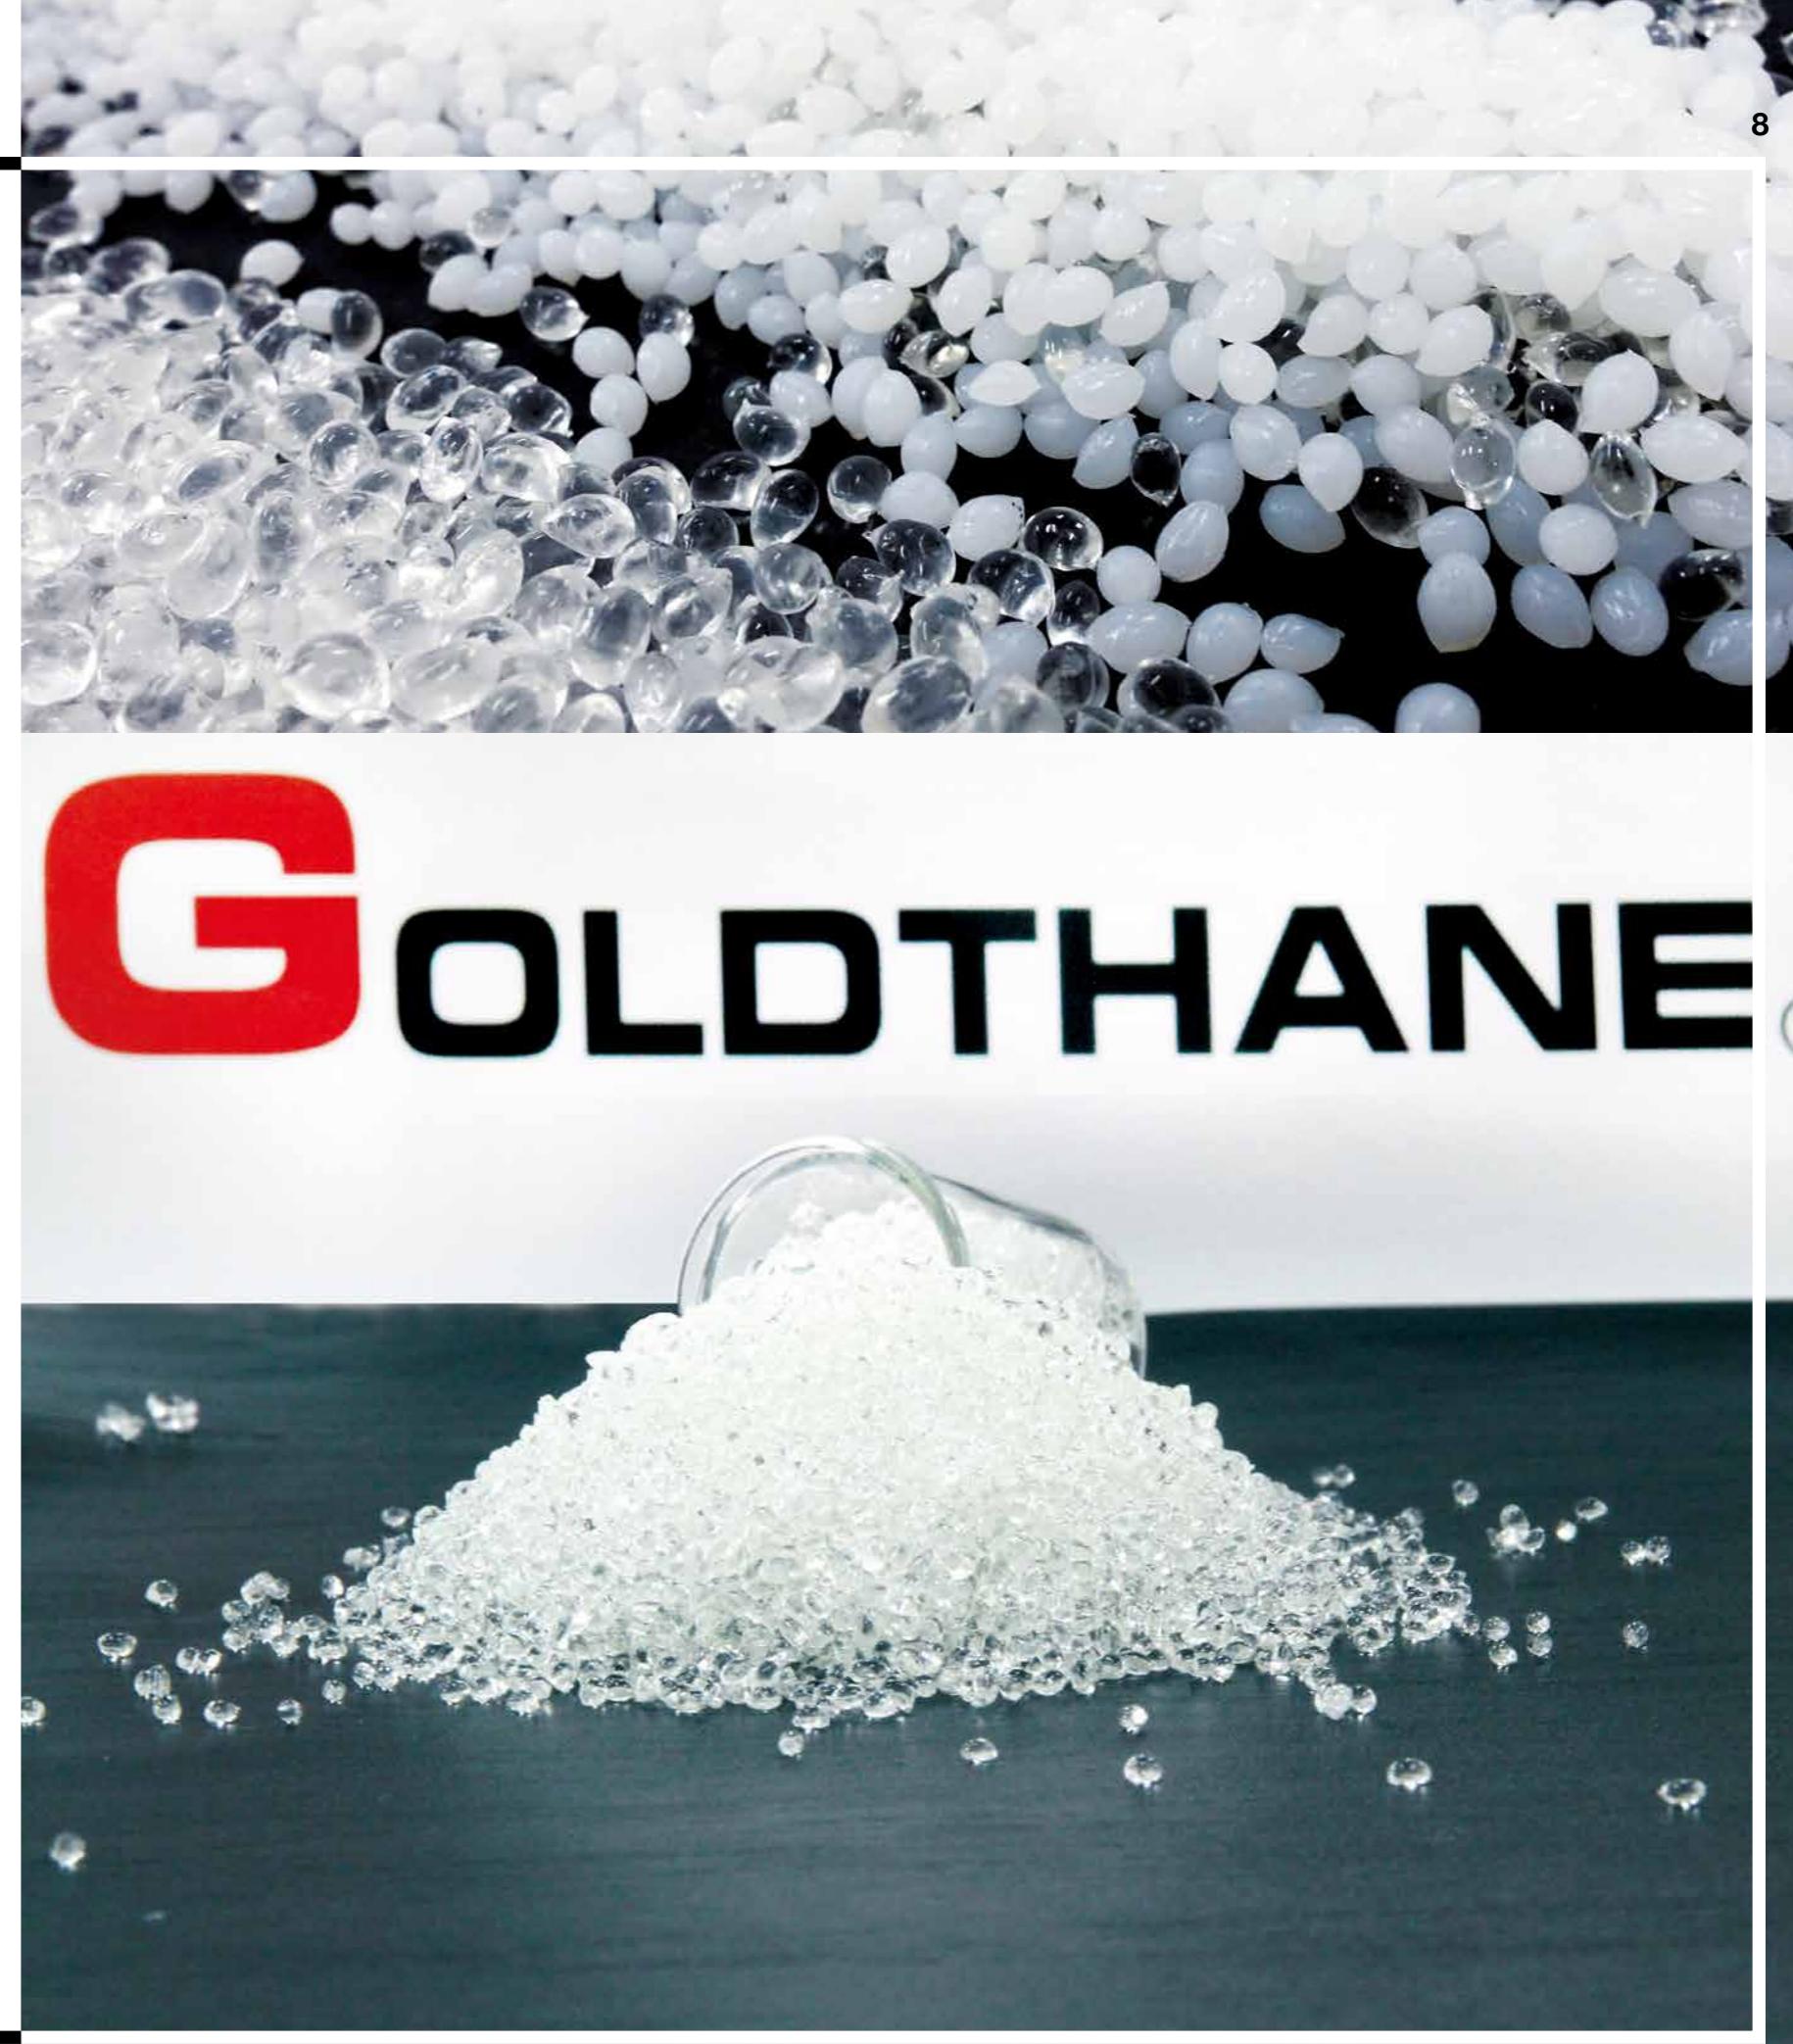

**認證資格**

- ✓ 取得 AFAQ-AFNOR Group ISO 9001 認證
- ✓ SGS 檢測 EN71-3 不含 19 項重金屬檢測標準
- ✓ SGS 檢測 不含有機錫
- ✓ SGS 檢測 通過 REACH SVHC 161 項高度關切物質
- ✓ SGS 檢測 無苯酚
- ✓ SGS 檢測 通過危害性物質限制指令 (RoHS) 限用六大有害物質
- ✓ ISO 9001 Certification approved by AFAQ-AFNOR Group
- ✓ SGS Certification Accredited to EN71 standard for section 3
- ✓ SGS Certification Non organic tin
- ✓ SGS Certification REACH SVHC 161 substances of very high concern
- ✓ SGS Certification Phenol free
- ✓ SGS Certification RoHS directive

PRODUCT PORTFOLIO

無溶劑型 TPU 系列

NON-SOLVENT TPU SERIES

應用：熱熔膠膜、粉、複合材

對無溶劑應用日趨成長的高度關注下，Goldthane® 無溶劑型系列能展現有效及高經濟附加價值的解決方案。散佈在紡織布材或是無紡布間，經由後加工熱壓，在加強整度與強化塑形效果上，可有絕佳的整體表現。擁有極佳的貼合牢度及廣泛黏度選擇下，更能精準符合您客製化的需求。

無溶劑型產品提供高回彈性、多樣的熔融流動性、貼合強度及優異的柔軟手感；可經由押出淋膜機、熱熔塗佈和吹膜機製成薄膜。適用於鞋業、傢俱業、汽車工業和消費性電子產品配件。另有針對特殊需求，Goldthane® 無溶劑型亦可磨成粉末應用於撒粉塗佈，符合環保法規及永續發展的訴求。

TPU 與各種生質材或塑料進行混練加工，可有效結合材料特色並發揮 TPU 特有之延展性、柔軟性、韌性等優點，增加產品應用範圍且友善環境。

複合材料可廣泛應用於 3D 列印材料、背袋扣環、汽車零件、防塵罩、止滑帶 ... 等各項產品，以材料創新滿足客戶及提升獲利及產品市場競爭力。

Application: Hotmelt film, Powder, Composite material

Recognizing the increasing level of interests in searching for solvent free application, Goldthane® Non-solvent TPU series demonstrates an effective and value-added solution. Interlined into woven or non-woven fabrics, then processed via heat presses, melted Goldthane® Non-solvent TPU series gives extra hardness to form and shape. Great heat bonding performance in variety of viscosities allows it to be customized to suit your needs.

Goldthane® Non-solvent TPU series can fulfill the requirement of high resilience, good melt flow-ability, great bonding strength, and premium soft touch characteristics; by extrusion lamination, hotmelt coating or film blowing to make TPU low temperature hotmelt film. These features can be applied to footwear, furniture, automobiles and various consumer electronics. For specific surface bonding, or environmental regulation control, Goldthane® Non-solvent TPU series can also be ground into a powder form and apply by scattering coating.

The composite TPU can be effective to take TPU characteristic such as high ductility, softness, toughness and other particular advantages into material. Extending the material applications range and improve Eco-friendliness. The composite TPU can apply for 3D printing, Medical splint, bag accessory, car parts, dust cover, slip tape, etc. Composite TPU innovation meets customer's inquiry and enhance profitability and product market competitiveness.

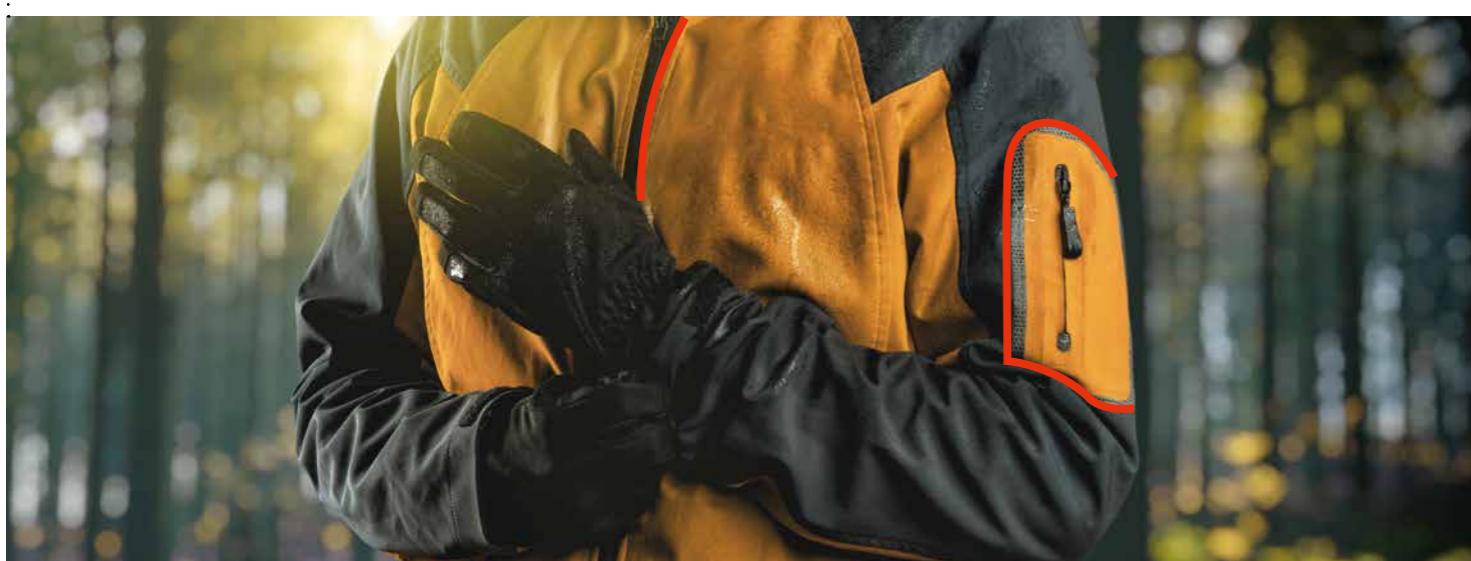

特點

- 環保
- 低溫可塑性
- 良好的柔韌性
- 優異的初期黏著性能
- 增加耐衝擊
- 增加韌性
- 高相容性
- 高挺性
- 回復性佳 (耐用性)
- 回彈性佳 (舒適性)
- 多種材料選擇
- 加工便利、低溫作業
- 複合材料的塑料改性

CHARACTERISTICS

- Environment friendly
- Low-temperature plasticity processing
- Excellent flexibility and toughness
- High initial bonding strength
- Excellent impact resistance
- Excellent toughening
- Excellent compatibility
- Excellent stiffness
- Excellent recovery (Durable)
- Excellent resilience (Comfortable)
- Various options for applications
- Low operation temperature, easy apply
- Efficiency to enhance special properties

溶劑型 TPU 系列

SOLVENT BASE TPU SERIES

應用：製鞋用膠水、木工膠、織物塗佈

滿足各鞋業、紡織業、家具業或安全用品的尖端產業之需求，Goldthane® 溶劑型系列 TPU 適用於各種加工製程，展現優越作業效率及多樣材質貼合效果，如橡膠、熱塑性橡膠、聚氯乙烯、PU 塑膠或皮革。

Goldthane® 溶劑型系列提供廣泛可黏時間、客製化黏度及獨特物理特性的產品組合。針對客戶提出高抗 UV 等級的特殊需求，Goldthane® AD291 系列可提供 4 至 5 級間的有效防護。

Application: Shoes adhesive, Wood adhesive, Fabric coating.

Goldthane® solvent base TPU is designed on solvent based adhesives grade to fulfill requirements of footwear, textile, and furniture manufactures. Goldthane® solvent base TPU creates safe industrial products in various manufacture conditions, and perform excellent efficiency with outstanding bonding. It can be applied to various materials, such as rubber, TPR, PVC, PU and leather.

Goldthane® solvent base TPU offer a variety of tack free time, customized viscosities and unique physical properties, for application by spraying or rolling. For example, in response to the special demand of high UV resistance, non-yellowing grade Goldthane® AD291 can effectively resist against solar radiation ranging from 4 to 5 degree of UV-resistance.

特點

- 黏度範圍廣
- 耐候性佳
- 可加工溫度範圍廣
- 可黏時間選擇性高
- 接著強度佳
- 抗 UV 不黃變
- 耐熱性佳
- 添加固化劑可用時間長
- 溶解力佳

CHARACTERISTICS

- Wide of viscosity range
- Excellent weathering resistance
- Wide of processing temperature range
- High selectivity of open time
- Excellent bonding strength
- Excellent UV - resistance
- Excellent heat resistance
- Long pot life with curing agent
- Excellent solubility

油墨載體 TPU 系列

INK CARRIER TPU SERIES

應用：熱轉印、網版印刷

Goldthane® 油墨載體系列為油墨塗料載體研製，適用於鞋業和紡織工業用多種基材塗料，可應用於網版印刷、凹版印刷和油墨噴塗加工。因其良好的耐磨耗、分散性、顯色性和其他特殊物性，使其在 PVC, PU, TPU 和紙材上黏著效果極佳，此系列亦依不同客製需求黏度提供相應規格。

特點

- 耐磨耗佳
- 分散性佳
- 顯色性佳
- 韌性佳
- 服貼效果佳
- 易操作使用

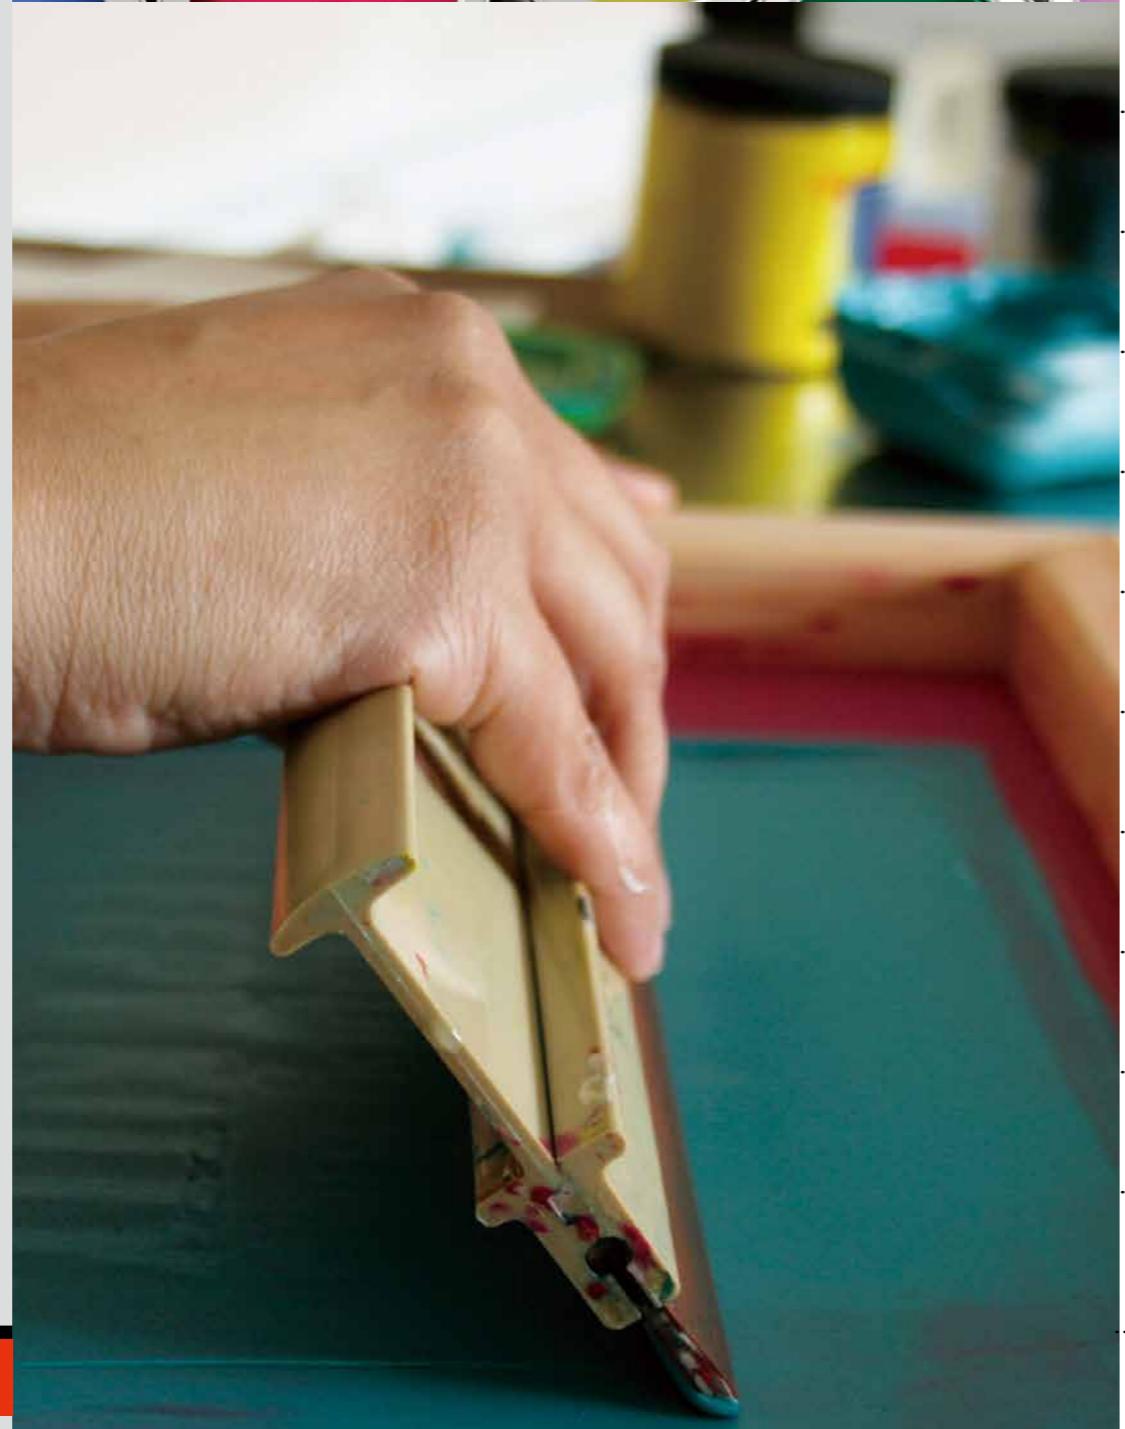

Application: Heat transfer process,
screen printing

Goldthane® Ink carrier series is developed for use as a carrier of ink coating for processes such as screen printing, intaglio printing and various kinds of ink printing for substrate material of footwear and textile industry. It provides excellent adhesion on PVC, PU, TPU and paper due to its abrasion resistance, fine dispersion, color rendering and other special physical properties. Extensive range of customized viscosity is available to meet different customer's demand.

CHARACTERISTICS

- Excellent abrasion resistance
- Excellent dispersion
- Excellent color rendering
- Excellent toughness
- Surface flatness with adhesion
- Easy for application
